Mobile Network Evolution

From Analog Voice to Ultra-Fast Connectivity

1G
First Generation

1980s

The birth of mobile communication with basic voice calling.

Technology	Max Speed
Analog (AMPS, NMT)	2.4 Kbps

Key Features:

- Voice calls only
- Analog signals
- Limited capacity
- No encryption

2G
Second Generation

1991

Digital revolution bringing text messaging and basic data services.

Technology	Max Speed
Digital (GSM, CDMA)	64 Kbps

Click to see features

3G
Third Generation

2001

Mobile internet era with multimedia capabilities.

Technology	Max Speed
UMTS, CDMA2000	2 Mbps

Click to see features

4G
Fourth Generation

2009

High-speed mobile broadband enabling the smartphone revolution.

Technology	Max Speed
LTE, WiMAX	100 Mbps - 1 Gbps

Click to see features

5G
Fifth Generation

2019

Next-gen connectivity powering IoT, AI, and immersive experiences.

Technology	Max Speed
NR (New Radio)	10 Gbps+

Connected Devices

1G

First Generation

1980s

The birth of mobile communication with basic voice calling.

Technology	Max Speed
Analog (AMPS, NMT)	**2.4 Kbps**

Key Features:

- Voice calls only
- Analog signals
- Limited capacity
- No encryption

2G

Second Generation

1991

Digital revolution bringing text messaging and basic data services.

Technology	Max Speed
Digital (GSM, CDMA)	**64 Kbps**

Key Features:

- Digital voice
- SMS messaging
- Better security
- Data services (GPRS/EDGE)

3G

Third Generation

2001

Mobile internet era with multimedia capabilities.

Technology	Max Speed
UMTS, CDMA2000	**2 Mbps**

Key Features:

- Mobile internet
- Video calling
- Mobile TV
- GPS navigation

4G

Fourth Generation

2009

High-speed mobile broadband enabling the smartphone revolution.

Technology	Max Speed
LTE, WiMAX	**100 Mbps - 1 Gbps**

Key Features:

- HD streaming
- Online gaming
- Cloud services
- VoIP calls

5G

Fifth Generation

2019

Next-gen connectivity powering IoT, AI, and immersive experiences.

Technology	Max Speed
NR (New Radio)	**10 Gbps+**

Key Features:

- Ultra-low latency
- IoT connectivity
- AR/VR support
- Smart cities

40+ Years	10 Gbps+	5+ Billion
Of Innovation	5G Peak Speed	Connected Devices
